DWAYNE MORAES

Multi Media Designer

+1 209 876 3652 | dwaynemoraes15@gmail.com | LinkedIn | San Jose, CA

SUMMARY

I'm a multidisciplinary digital artist who likes to work where storytelling, design, and technology meet. My practice includes illustration, motion, 3D, and interactive media, and I shift between them depending on what the idea calls for. I'm drawn to bold visuals, thoughtful details, and finding ways to turn abstract concepts into something people can connect with.

I work with clients, studios, and other artists on everything from branding and animation to experimental digital projects. No matter the medium, I focus on clear communication, strong ideas, and careful execution.

If you'd like to collaborate or talk about a project, I'm always open to a conversation.

SKILLS

Design Tools: Adobe Photoshop, Illustrator, Premiere Pro, XD, Figma, Canva

Web: HTML, CSS, Responsive Web Design

3D/Visual: Basic 3D Modeling, Motion Graphics

UX/UI: Wireframing, Prototyping, User Research, Usability Testing, Interaction Design, Design Systems

Soft Skills: Collaboration, Communication, Time Management, Creative Problem-Solving

Languages: English (Native), Hindi (Fluent)

EXPERIENCE

Design Intern – College Event | Mumbai, India | 2022

• Designed posters, banners, brochures, and digital graphics to boost event visibility on campus and social media.

• Supported planning and execution of visual branding for a large-scale event in collaboration with the

organizing committee.

• Collaborated in a fast-paced environment to meet strict deadlines while maintaining design quality.

• Applied Adobe Photoshop, Illustrator, and Canva for production.

PROJECTS

Mobile Banking App for Teens | 2025 – Present

• Designing a gamified mobile banking app for ages 13–18 to promote financial literacy with savings goals,

spending insights, and parental controls.

• Built interactive prototypes in Figma to test and refine the user experience.

Minimalist Movie Poster | 2023

• Redesigned a popular film poster using minimal typography, shapes, and color to emphasize visual storytelling.

• Showcased creative problem-solving by conveying narrative with limited design elements.

EDUCATION

B.A. Digital Media Arts – San Jose State University | 2025–Present

A.A. Graphic Design – Modesto Junior College | 2023–2025

CERTIFICATIONS

• HTML & CSS in Depth – Meta (2023)

• Foundations of UX Design – Google (2023)
